My eQuals

Benefits of My eQuals Digital Badges for Learners

The Official Tertiary Credentials Platform for Learners

www.myequals.edu.au

More secure than a paper-based certificate, each My eQuals digital badge holds the evidence of your learning. Being sharable and verifiable, future employers, professional bodies and other education providers can see the skills training you underwent to earn your My eQuals badge.

Verify Your Skills

Employers, professional organisations and other education institutions can access the data behind every badge issued to verify a learners skills and competencies.

Knit Your Skills Together

Digital badges can be showcased together to tell the full story of a someones skills and acheivements, opening up greater opportunities to show growth.

Share Your Badges Anywhere

Each digital badge is unique, learners can share online, on social media and in email. According to a recent LinkedIn study, profiles with certifications and badges are viewed six times more than the average profile.

Take Your Badges Everywhere

Digital badges are linked to the issuing education institution and can be shared anywhere around the world, opening up opportunities to study or work abroad.

Show Your Up To Date Skills

Digital badges let organisations know what you have accomplished, quickly and easily. Meaning learners are easily able to show a willingness for learning growth and acheivement over a time.
